PROJECTS

Coder

https://github.com/akhilkala/coder

Coder is a competitive coding pseudo-social media platform. The end goal is to bring coder to all platforms including web, mobile and also have a browser extension
• It uses the MERN stack with Typescript for web.
• It uses python and selenium to scrape leetcode questions.
• It is containerized with docker.

Design Portal

https://design.iecsemanipal.com/

Prism is IECSE's very own design social network for budding designers where we host design competitions.
• It uses the MERN stack with Typescript.
• Worked on the client side with React. It uses React Query for caching.
• It has an admin side to moderate posts and users.
• Deployed on an EC2 instance.

Hawkeye

https://github.com/akhilkala/Hawkeye-2021

Hawkeye is signature scavenger hunt of IECSE's anuual tech fest, Prometheus.
• It uses the MERN stack with Typescript.
• Worked on the client side with React and the Context API.
• It was containerized with docker and deployed on Digital Ocean.

EDUCATION

Electronics and Communication

Manipal Institute Of Technology, Manipal   2019-2023
